

# Choosing Research Projects

EES 4760/5760

Agent-Based and Individual-Based Computational Modeling

J. Magnolia Gilligan

# Getting Started

# Announcement

- I will be traveling on Oct. 6–8 and will have to miss class
  - Discuss options for making up the missed classes.

# Choosing Research Projects

# Individual Semester Project

- Pick a published model to work with
  - Recommendations:
    - CoMSES OpenABM library
    - NetLogo “model library”
    - NetLogo “[modeling commons](#)”
    - *The Modeling Social Behavior* textbook
  - Or another place
- Today: Discuss choosing a project model.
- Friday, Sept. 25: One-page description of model and thoughts for extending it
- Wed., Oct. 21: Analysis of published model.
  - Short write-up of how model works and what you saw running it
- Wed., Nov. 4: ODD for extending model
- Wed., Nov. 18: Draft of extended model
- Tue–Thur. Dec. 1–3: In-class presentations
- Sat. Dec. 19: Report (around 10 pages)
